

THE INVESTMENT OF PORT ARTHUR

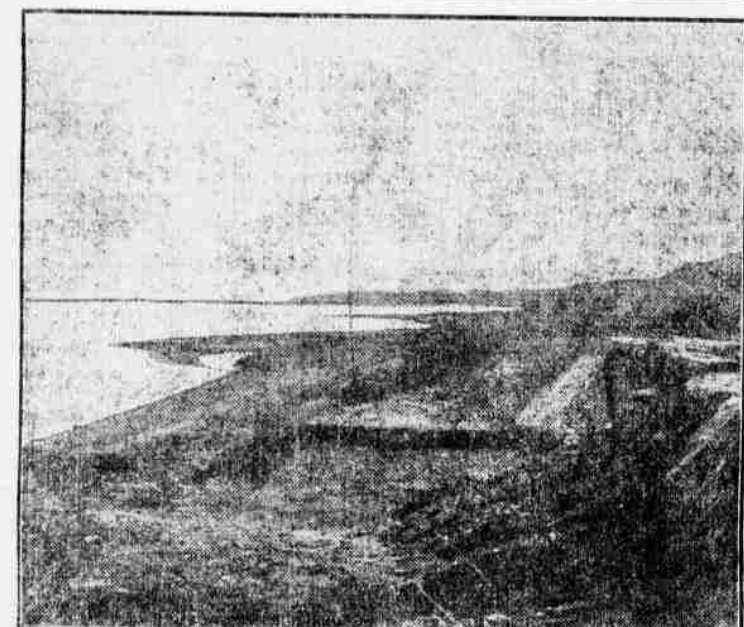

Japanese Have Landed On the Liao Tung Peninsula.

PORT ARTHUR IS ISOLATED

Viceroy Alexieff and Prince Boris Retired to Harbin, Taking All Important Documents, Money and Field Guns.

WASHINGTON, May 7.—THE STATE DEPARTMENT HAS RECEIVED A CABLEGRAM FROM UNITED STATES MINISTER GRISCOM, AT TOKYO, CONFIRMING THE PRESS REPORT OF THE LANDING OF THE JAPANESE IN THE LIAO TUNG PENINSULA, ABOUT FORTY MILES ABOVE PORT ARTHUR. THE LOCATION AS GIVEN IN THE JAPANESE DISPATCH IS KIN-CHAU, THIS IS THE NARROWEST POINT ON THE PENINSULA AND, CONSEQUENTLY, THE MINISTERS SAY, THE RAILROAD IS PRACTICALLY CLOSED AND THE INVESTMENT OF PORT ARTHUR HAS BEGUN.

St. Petersburg, May 6-5:10 p. m.—The details of the Japanese landing at Pitsewo have just been received by the general staff. From information brought to Port Arthur by the Chinese, 60 transports are disem-

IN TALIANWAN BAY. Here the Manchurian railway runs close to the Yellow Sea, and is particularly vulnerable to attack.

bering two divisions, numbering altogether 30,000 men, of which 15,000 were landed Thursday evening. No news has been received up to this hour of any other landing. Strict orders have been given to Rear-Admiral Witteffort not to take out his warships from Port Arthur.

London, May 7.—A dispatch to the Central News from St. Petersburg says the Japanese landed at Port Adams on the west coast of the Liao Tung peninsula as well as at Pitsewo.

Paris, May 7.—A dispatch to the Havas agency from St. Petersburg says the Japanese troops who landed at Pitsewo, Thursday, have cut the land communications with Port Arthur.

Rome, May 7.—According to a telegram received here from Che-Foo the garrison at Port Arthur has been reduced to 4,000 men and all the important documents, money and field guns have been removed to Mukden.

REPORT OF ADMIRAL HOSIYA.

Partial Details of the Landing on the Liao Tung Peninsula.

Tokyo, May 7.—The report of Admiral Hosoya, just received gives details of the landing of Japanese troops on the Liao Tung peninsula, suppressing the location of the landing place. The admiral says:

"Our seventh division with torpedo boats and the Hong Kong-Maru and the Nippon-Maru, arrived from the advance base off the Liao-Tung peninsula at 5:30 May 5. Discovering a number of the enemy's patrol boats, we bombarded them for a short time and then a landing party of sailors, Capt. Nomoto leading, was ordered ashore. It being low tide it was impossible to use the boats and the sailors plunged into water, waded breast deep for about a thousand yards and reached the beach at 7:20 p. m. Immediately advancing they took possession of a range of hills without firing a shot and planted our flag on the hills.

"The gunboats Amagi, Oshima and Chiokei were employed to distract the enemy's attention. They discovered a hundred of the enemy and shelled them, killing several.

"The first fleet of transports, on seeing our flag displayed on an eminence began landing troops at 8 p. m. The troops, who were forced to wade ashore, were in high spirits.

"In order to facilitate the further landing of troops, piers are being erected. Our division is assisting in the work.

The report of Admiral Kataoka, commander of the third squadron, gives additional details of the landing. The admiral reports that his squadron conveyed the first batch of the second army to the Liao-Tung base, and adds that the Kara Maru grounded near the base at three o'clock Thursday afternoon. She was assisted by the protected cruiser Akitsushima, which succeeded in floating the transport, which reached her destination safely at five o'clock the same evening.

OFFICIALLY CONFIRMED.

Viceroy Alexieff and Grand Duke Boris Have Left Port Arthur.

St. Petersburg, May 6-12:48 p. m.—The landing of the Japanese at Pitse-

CALM DISCIPLINE PREVENTED PANIC

What Might Have Been a Repetition of Iroquois Horror.

WAS AVERTED BY COOLNESS

Proctor's Theater, in New York City, Was on Fire, and a Panic Was Prevented by Display of Police Clubs.

New York, May 8.—Discipline, calmness and ready wit prevented a panic in Proctor's theater Friday night. The second act of "A Rose of Plymouth Town" was on. Smoke curled slowly up from a window of the fifth floor of the other half of the theater building, used for offices and the storage of scenery. A red tongue of flame licked out. In three seconds more the upper floors were roaring with fire.

A Level-Headed Manager. Manager Brunelle kept his head cool. He touched an electric button that rang bells wherever an usher or attendant was stationed. The ringing, just loud enough for the theater employees, but not for the audience to hear, meant "fire; every man to his place."

"Ladies and gentlemen," said the manager, speaking in a voice that penetrated every corner of the theater, but had no tone of alarm in it, "there is a fire in the building next door. There is not the slightest cause for alarm, so every man, woman and child, must keep his seat. Must keep his seat, you understand. You will all get out safely and quickly."

A Small Boy Yelled "Fire." Then a woman in the balcony screamed. A small boy in the gallery yelled "Fire!" At the rear of the orchestra floor a rush for the door began. At that instant the big doors swung open, and Capt. Nally, at the head of 15 policemen, appeared. The detail split, a third running down each aisle until they had the whole floor commanded. Nally ran to the footlights and waved his stick, calling out in a loud voice:

"Keep your seats! If anybody in this house starts a stampede, I'll knock his head off. At the rear of the orchestra floor a rush for the door began. At that instant the big doors swung open, and Capt. Nally, at the head of 15 policemen, appeared. The detail split, a third running down each aisle until they had the whole floor commanded. Nally ran to the footlights and waved his stick, calling out in a loud voice:

Clubs Were Tempers. "Keep your seats! If anybody in this house starts a stampede, I'll knock his head off. At the rear of the orchestra floor a rush for the door began. At that instant the big doors swung open, and Capt. Nally, at the head of 15 policemen, appeared. The detail split, a third running down each aisle until they had the whole floor commanded. Nally ran to the footlights and waved his stick, calling out in a loud voice:

Will Go to Vladivostok. Vice-Admiral Skrydloff and Vice-Admiral Bezobrazoff can not now reach Port Arthur, and will probably go to Vladivostok to join the cruiser squadron there. Rear-Admiral Witteffort, who was left in charge of the fleet by Viceroy Alexieff will direct operations at Port Arthur. Witteffort is a good officer, and it is believed he will render excellent service.

Despite the greater number of Japanese the general staff believes that their formidable fortifications still leave the defensive superiority to the Russians, whose staying qualities, it is confident, will insure their holding out as long as necessary. While the outer line of fortifications extends to Kinchow, unquestionably no determined effort will be made to hold them, nor it is expected that a desperate attempt to retain Dalny will be made. The main defense will be of Port Arthur, where, since the harbor has been occupied by the Russians, steady work has progressed to complete the system of defense, which is just as effective on the land as on the sea.

Lieut. Gen. Stoessel will have supreme command at Port Arthur. He is described as a high class commander. His recent proclamations show that he is imbued with a determination to hold Port Arthur until the last man is killed. Officers of the general staff say that the landing of the Japanese army on the peninsula and the investment of Port Arthur clarify the military situation.

Japanese Reticence. Correspondents get little satisfaction from Japanese officials.

Tokyo, May 7.—Beyond the announcement that a certain force of the Japanese army effected a landing at an unnamed place on the Liao-Tung peninsula and the report of Admiral Hosoya, the Japanese government absolutely refuses to discuss the nature of this operation or its plans.

Gen. Fukushima, of the general staff, made the announcement of this movement to the foreign correspondents here. He said:

"On the 5th of May some strength of the Japanese army began to land on the Liao Tung peninsula."

"Where, and in what force?" asked the correspondents.

Gen. Fukushima smiled in answer, but said nothing.

"From the east, west, north or south?" asked the correspondents.

"Out of the skies from heaven," answered the general, and the interview ended.

FIGHTING EXPECTED.

Russian Rushing Reinforcements Toward Feng-Wang-Cheng.

St. Petersburg, May 6-6:02 p. m.—News of very heavy fighting near Feng-Wang-Cheng is expected within 36 hours. Large reinforcements have reached the Russian position.

An imperial order has been issued attaching three batteries of artillery to each of the nine rifle divisions.

FELL TO INSTANT DEATH

Michael Trutcius' Foolhardy Attempt and Its Sequel.

Would Climb a 200-Foot Tower If He Broke His Neck, Which Was Just What He Did.

Chicago, May 7.—From a ladder 150 feet up the side of a temporary tower at Steger, Ill., Michael Trutcius has fallen to instant death. Fifty fellow-workmen in a piano factory witnessed the plunge. The tower had been erected for the use of a photographer to take a bird's-eye view of the town. It was made of steel, in sections, and was more than two hundred feet high. The piano makers were leaving work soon after the last sections had been bolted together. Trutcius, who was 21 years old, had boasted that he would be the first person to climb the tower, adding:

"I'll climb to the top if I break my neck for it."

His companions cheered him on, and he slowly climbed the wire ladder on the outside. More and more halting, he ascended, until, when 150 feet high, he stopped suddenly, clung desperately and fell. His neck was broken.

THE VICE-PRESIDENCY

Senator Platt Says That Senator Fairbanks Is to Be the Republican Nominee.

New York, May 7.—The World quotes Senator Thomas C. Platt as saying:

"In Washington the feeling among the republican leaders is that Senator Fairbanks is to be nominated for vice-president. It is practically settled. The only man who has not agreed to it is Senator Fairbanks, but he will accept and make a strong candidate. He is a very reluctant candidate, yet an unwilling aspirant, but he will yield to the pressure for his nomination."

According to the World, Mr. Platt announced that he is for Elihu Root for governor.

Shamokin, Pa., May 7.—Fire, which broke out late Thursday night, in the Locust Gap slope operated by the Philadelphia & Reading Coal & Iron Co., is still raging furiously. John and Michael Berdan and Michael Shannon, of Locust Gap, who were in the mine when the fire started, were unable to reach the surface, and a rescuing party is at work endeavoring to reach the entombed men.

Locust Spring breaker, which prepared the Locust Gap coal for market, was forced to shut down, rendering over 1,000 men and boys idle.

GUN WITH A CLEAN RECORD

A New Six-Inch Gun on the Battleship Texas, Fired Nineteen Times With Nineteen Hits.

Washington, May 7.—In a letter to the navy department, Capt. Swinburn, commanding the Texas, said that there is on that ship a new six-inch gun which has been fired 19 times and has made 19 hits. This is the only gun in the navy that has never made a miss.

In his letter to the department Capt. Swinburn also called attention to the splendid record shown by the men of the Texas in target practice. The Texas won on the target range within a few hours after the terrible accident on the Missouri. At the time the Texas began her practice the cause of the accident was absolutely unknown, but the Texas made the best records of any ship in this year's target practice.

NEARLY CAME TO BLOWS.

Hearst and Parker Supporters Almost Came to Blows at Hartford, Conn.

Hartford, Conn., May 7.—In the debate between the Hearst and Parker supporters in the democratic convention, ex-Gov. Waller and Dr. Brothers, of New Haven, nearly came to blows. The scene was almost unprecedented in a convention in this section. Cool-headedness on the part of the many delegates prevented a worse scene.

Hanged at Walla Walla. Walla Walla, Wash., May 7.—James Champoux was hanged in the state penitentiary here for the murder of Lottie Brace at Seattle, November 6, 1902. Champoux walked from the hospital building to the scaffold, nearly fifty yards distant, unaided.

TO CHECK TUBERCULOSIS.

Matteson, Ill., May 7.—Mrs. Mary Ferrell, a colored woman of this city, observed her one hundred and sixth birthday anniversary Thursday. She is the oldest resident of Cook county. She was born in slavery in Alabama.

NEW INSTRUMENTS FOR SCOUTS.

St. Louis, May 8.—Maj. Johnson, commanding the Philippine scouts, has received notification from the quartermaster general that a full set of new band instruments had been authorized for the scout band, and will be forwarded in a few days.

DIED IN AN ALMSHOUSE.

San Francisco, May 8.—Henry Fuchs, who made a great fortune by the invention of barbed wire, and was formerly a partner of John W. Gates, died in the almshouse here Wednesday.

HER AGE WAS HER SECRET.

And She Knew How to Bait the Efforts of the Inquisitive to Learn It.

"I Have Every Reason to Praise Pe-ru-na,"

WRITES MRS. KANE, OF CHICAGO.

"Trust a woman to foil a woman," said the receiving teller of an up-town bank much patronized by women who draw their own checks, relates the New York Times. "One morning when I was trying to get rid of a long line of them there came along a woman who wanted to open an account. I knew her by reputation as an actress at one time popular in New York, but who of late years had been leading a more or less retired life. I could see that most of the other women recognized her, too.

"Your age, please?" I inquired. "Is that necessary?" she asked, somewhat sharply. "It is."

"She hesitated a moment and glanced down that line. Every woman was 'rubbing' to catch her reply, but taking a silver pencil case from her wrist bag, she asked me for a piece of paper. Having written a line upon it, she gave me the slip, saying:

"Hand that back to me, please, when you have made the necessary entry."

"It is so and she walked down the line of women with a smile of disdain that it was worth a day's work to see. All of the others looked foolish."

"The woman said it is that she should have been so reticent. She is 15 years younger than I thought she was."

At the live stock show recently held in Chicago Secretary of Agriculture James Wilson was one of the speakers at a mass meeting of cattle men. Behind him on the same platform, relates the New York Herald, somewhat scorned from observation, sat Norman J. Colman, the first man to hold the portfolio of agriculture.

Secretary Wilson made a happy speech, and because of his popularity with the western ruralist he was the shining, central figure of the gathering. When he had finished talking lusty lungs and sun-burned hands gave him noisy approbation. The applause had not ceased when a Nebraska farmer, with whiskers like Senator Pettet's, arose in the back of the hall and said:

"Gentlemen, we are all mighty glad to hear Secretary Wilson and are ready to do him honor, but let us not forget the other great man with us. We have on the same platform to-night the alpha and omega of agriculture."

His few remaining words were lost in the shrieks of laughter.

Half Time in Bed. Mount Hor, Ky., May 9.—The records of medicine in this state do not contain a more interesting and instructive case than that of Mrs. Lillian Jacobs, of Mount Hor. Mrs. Jacobs tells the particulars of her case as follows:

"For six years I had to keep to my bed most of the time. When I did get up I was not able to walk across the house without just gasping for breath. I had kidney trouble in the worst form, in fact, I was a total wreck. It is now my duty to urinate and my back ached all the time. Now I am well, for Dodd's Kidney Pills have cured me. I saw an advertisement of this remedy and bought one box. I experienced so much benefit from this that I kept on till I was cured completely."

"I can do my own housework and can walk around as well as ever with perfect ease and strength. Just now I am helping to make garden. I feel like a new woman, and I owe it all to Dodd's Kidney Pills."

Unlucky. Publisher—Your book is fine up to the seventh chapter. After that it is mere drivel.

Author—Sir, it is my misfortune, not my fault. Just as I was beginning the seventh chapter I discovered, quite accidentally, what I was driving at.—Fack.

BE WARNED.

Heed nature's warnings! Pain tells of lurking disease. Backache is kidney pain—a warning of kidney troubles, too, come to tell you the kidneys are sick. Constant weariness, headaches, dizzy spells, days of pain, nights of unrest are danger signals warning you to cure the kidneys.

Frank D. Overbaugh, cattle-buyer and farmer, Catskill, N. Y., says: "Doctors told me ten years ago that I had Bright's Disease, and said they could do nothing to save me. My back ached so I could not stand it to even drive about, and passages of the kidney secretions were so frequent as to annoy me greatly. I was growing worse all the time but Dodd's Kidney Pills cured me, and I have been well ever since."

A FREE TRIAL of this great kidney medicine which cured Mr. Overbaugh will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all dealers; price 50 cents per box.

"I Have Every Reason to Praise Pe-ru-na,"

WRITES MRS. KANE, OF CHICAGO.

"I Have Every Reason to Praise Pe-ru-na,"

WRITES MRS. KANE, OF CHICAGO.

Mrs. K. Kane, 173 Sebor Street, Chicago, Ill., writes:

"Peruna has been used so long in our family that I do not know how I could get along without it. I have given it to all of my children at different times when they suffered with colds, coughs and the many ailments that children are subject to, and am pleased to say that it has kept them in splendid health."

There is no fact of medical science better known than that Peruna cures catarrh wherever located. Thousands of families in all parts of the United States are protected from colds and catarrh by Peruna. Once in the family Peruna always stays. No home can spare Peruna after the first trial of it.

One of the greatest foes with which every family has to contend is our changeable climate. To protect the family from colds and coughs is always a serious problem, and often impossible. Sooner or later it is the inevitable fate of every one to catch cold. Care in avoiding exposure and the use of proper clothing will protect from the frequency of colds, but the severity of colds and perhaps the greatest of precautions they will come. This is a settled fact of human experience. Everybody must expect to be caught somewhere or somehow.

Perhaps it will be wet feet, or a draught, or damp clothes, or it may be one of a thousand other little mishaps, but no one is shrewd enough to always avoid the inevitable catching cold.
